Invesco Global Total Return (EUR) Bond Fund Z-Acc

An unconstrained fixed income fund that aims to produce attractive returns through selecting bonds globally, which resulted in outstanding absolute and risk-adjusted results over 5 years and since fund's inception (Ranked in 1st quartile in peer group)

30 seconds: Why we believe in this fund

- Diverse Market Opportunities:** The fund can exploit a wide range of fixed income markets, providing diverse sources of returns, including global government, investment grade credit, high yielding corporates, emerging market, subordinated banks & insurers, and hybrids & convertibles.
- Flexible Risk Management:** Our portfolio managers have the highest flexibility regarding sector/asset allocation and are prepared to reduce risk when rewards are not attractive. The fund has historically low maximum drawdowns of only -10.29% over 5 years and navigated well through the difficult COVID market environment.
- Active Liquidity Management and Duration Hedging:** We employ active strategies for liquidity management and duration hedging, with no limits on duration range (historically between 1.5 and 8.5).
- Strong Management Team:** Our management team is strong and supported by a very capable research team including economists, foreign exchange rates specialists, and credit analysts. The fund has 1st quartile performance since its inception.
- Consistent Performance:** The fund has consistently higher rolling 5-year Sharpe ratio than the peer group and 1st quartile Sharpe and Sortino ratios since launch.
- ESG Integration:** The fund makes use of Invesco's proprietary ESG tool - ESGintel - to score companies based on 52 ESG indicators in addition to third-party tools. All material ESG risks are evaluated by the credit analysts and discussed with the portfolio manager before purchasing a security.

Risk Warnings

For complete information on risks, refer to the legal documents. The value of investments and any income will fluctuate (this may partly be the result of exchange-rate fluctuations) and investors may not get back the full amount invested. Debt instruments are exposed to credit risk which is the ability of the borrower to repay the interest and capital on the redemption date. Changes in interest rates will result in fluctuations in the value of the fund. The fund uses derivatives (complex instruments) for investment purposes, which may result in the fund being significantly leveraged and may result in large fluctuations in the value of the fund. Investments in debt instruments which are of lower credit quality may result in large fluctuations in the value of the fund. The fund may invest in distressed securities which carry a significant risk of capital loss. The fund may invest extensively in contingent convertible bonds which may result in significant risk of capital loss based on certain trigger events. The Fund may invest in a dynamic way across assets/asset classes, which may result in periodic changes in the risk profile, underperformance and/or higher transaction costs.

Fund Objectives and Policy: The Fund aims to maximise total return primarily through investment in a flexible allocation of debt securities and cash. For the full objectives and investment policy please consult the current prospectus.

The investment concerns the acquisition of units in an actively managed fund and not in a given underlying asset.
